TECHNICAL DATASHEET

PEROXIFOAM

Zootechny / Teat hygiene

Pre-dipping foam with lactic acid

Features

Ready-to-use foaming detergent specially formulated to cleanse the skin before milking operations. PEROXIFOAM, forms a dense stable foam that completely covers the parts to be treated with a long contact time for a cleansing and protective action. Hydrogen peroxide, thanks to active oxygen, amplifies the detergent action of the surfactants, favoring the breakdown of dirt and impurities.

Application fields

PEROXIFOAM is employed in the zootechny-veterinary sector.

How to use

Treat directly with a special foaming applicator, wetting all the interested parts that come into contact with the milking unit. Leave for a few seconds. Before milking, clean the treated parts thoroughly with paper or disposable wipes.

Concentration of use: as it is, without dilution

Features

Form:	foam
pH:	4-5
density:	1,01 – 1,05 g/cm ³ @25 °C

Compatibility

No incompatibility known.

Packaging

Canister: 10 kg 20 kg
Barrel: 200 kg
IBC: 1000 kg

Other information

PEROXIFOAM meets the classification criteria of Regulation (EC) no. 1272/2008 (CLP).

Hazard class and category: Eye damage / Irritation, 2

PEROXIFOAM is not defined as dangerous for the different modes of transport according to the "United Nations Recommendations on the transport of dangerous goods - Model Regulations".

Chemical composition (Reg. 648/2004 / EC):

<5% anionic surfactants, oxygen-based whiteners
