TECHNICAL DATASHEET

AGRICLEAN

Zootechny / Cleaning of plants and surfaces

Specific disintegration acid detergent for verdigris and pesticide residues.

Features

AGRICLEAN is a specific developed detergent for the disintegrating and removal of verdigris and pesticide residues from the surfaces.

Application fields

AGRICLEAN finds application in the agricultural sector specifically in the cleaning of nebulizer machines, tractors and all the related equipment.

How to use

Dilute the product in cold or hot water up to 60 °C. Wet with a sprinkler pump the surfaces to treat and let the solution into contact enough time for the disintegration of deposits. Rub with pressured water removing the dirt and product residues.

Use concentration: 5% - 10%

Rise the concentration if needed. Prevent the product from drying out on the surface (long contact), particularly in the hottest periods.

Collect the washing residues avoiding to disperse in the environment.

Features

Form: liquid
pH: 1-2
density: 1,3 – 1,35g/cm³ @25 °C

Compatibility

Consider the following compatibility (referred to the pure product):

- Compatible materials: AISI 304 stainless steel, AISI 316 stainless steel polyvinyl chloride (PVC), polyethylene (PE) polypropylene (PP) polytetrafluoroethylene (PTFE) ethylene-propylene rubber (EPDM).
- Incompatible materials: strong acids, galvanized steel, aluminum, acetal resin (POM).

If in doubt, test the product on a small portion of the surface not in sight.

Packaging

Canister: 12,5 kg 25 kg

Other informations

AGRICLEAN meets the classification criteria of Regulation (EC) no. 1272/2008 (CLP). For specific information see safety data sheet.

Hazard class and category: Skin corrosion / Irritation, 1

Hazard class and category: Acute toxicity, 4

AZIENDA CERTIFICATA
SECONDO GLI STANDARD
DI QUALITÀ ISO 9001:2015

AGRICLEAN is defined as dangerous for the various modes of transport according to the "United Nations Recommendations on the transport of dangerous goods - Standard Regulations". For specific information, see section 14 of the safety data sheet.

Composition (Reg. 648/2004/CE):

<5% non-ionic surfactants, phosphonates, anionic surfactants.

Attention

This technical data sheet is intended to be purely indicative. For the definition of the correct protocol for the use of Devidet s.r.l. always consult the Devidet s.r.l. Technical Office, expert technicians will be able to provide the most suitable solutions for specific needs. Product for professional use only. We decline all responsibility for damage resulting from improper or unauthorized use of the product. Before use, check that the product matches the type of application required. Before use, consult the safety data sheet or the information sheet.
